

ITIL 4 Specialist: Acquiring & Managing Cloud Services (AMCS) - accredited training with exam

The ITIL®4 Extension Modules have been developed to enable organizations to maximize value from adopting the globally recognized ITIL®4 framework as part of the ITIL®4 certification scheme.

These certifications extend the main ITIL®4 framework and provide organizations with the guidance to address and harness the challenges and opportunities presented by emerging technologies and themes that impact their operations.

The Extension Modules also allow individuals to learn about ITIL® concepts, develop an understanding of relevant ITIL®4 guidance and enable career development opportunities in Cloud Services and Sustainability in Digital and IT.

Purpose of the training

The ITIL Specialist: Acquiring & Managing Cloud Services module is for anyone requiring vendor-neutral, user-centric guidance on developing a practical understanding of how cloud procurement and technology can integrate with and support broader business strategy and functions, regardless of sector, industry, or cloud maturity.

Benefits of completing the training

ITIL 4 Specialist: Acquiring & Managing Cloud Services enables professionals to:

- Analyze available solutions and potential benefits using a vendor-neutral approach
- Effectively identify, select, and deliver optimized cloud services
- Facilitate value co-creation through successful cloud services procurement and integration whilst applying the ITIL 4 framework.
- Adopt a customer-focused end-to-end cloud procurement user journey.

Examination method

The participants receive vouchers, which are valid for 6 months, for online exam.

Having completed the training, the participant receives an e-mail with guidelines how to register on the exam. The date is determined directly with PeopleCert, with the use of participant's account.

Online exam is conducted in the presence of proctor – a person from PeopleCert, who connects remotely with training participant's desktop and observes the course of exam via Internet camera.

The person who takes the exam is obliged to show the place where he is going to write the exam to proctor via Internet camera. Proctor checks if there are not any other persons and study aids in the room.

Exam description

- Exam duration: 90 minutes
- One choice test – 40 questions
- Candidates need to get 26 questions correct (65%) to pass the exam
- Closed book exam
