Benefits of completing the training

The PC DevOps **Leadership** course is a unique experience for participants who would like to understand how to implement **DevOps** in their organization. Moving employees through cultural transformation requires new skills, innovative thinking and **transformational leadership**. The whole structure of management levels in **IT organization** must be matched and organized in such a way so as to evolve successfully from organization with a traditional silos structure to the structure recommended by DevOps.

The course emphasizes the pace of cultural changes and equips participants with practices, methods and tools to involve people from the whole DevOps spectrum by using actual scenarios and case studies

Moreover, completing the training prepares participants for DevOps Leadership. Certificate exam.

Examination method

The participants receive vouchers, which are valid for 6 months, for online exam.

Having completed the training, the participant receives an e-mail with guidelines how to register on the exam. The date is determined directly with PeopleCert, with the use of participant's account.

Online exam is conducted in the presence of proctor – a person from PeopleCert, who connects remotely with training participant's desktop and observes the course of exam via Internet camera.

The person who takes the exam is obliged to show the place where he is going to write the exam to proctor via Internet camera. Proctor checks if there are not any other persons and study aids in the room.
