SAFe® Product Owner / Product Manager

What skills do you need to deliver value in a Lean enterprise? **The SAFe® Product Owner and SAFe® Product Manager (POPM)** course covers the tactical responsibilities of these roles in the **Agile Release Train**. The course also gives you the guidance and tools you need to work effectively in remote environments with distributed teams.

Learn how product owners and product managers should work together to achieve the best possible customer and business outcomes. The SAFe POPM course will teach you how to adopt a customer-centric approach to building products, using Scaled Agile Framework® to deliver more value, faster. Topics covered in this course include the daily role of POs and PMs; collaborating with engineering teams and business stakeholders; how to write epics, features, and stories; and how to design, prioritize, build, test, and deliver products with increased productivity and higher quality.

Purpose of the training

- o Product Owners and Product Managers,
- o Managers and leaders of programs and projects.

Benefits of completing the training

Attendees learn:

- How to perform the role of a PO and a PM on a daily basis.
- How to put the customer at the center of your design, build, and test process.

- How to prepare for and lead PI Planning.
- How to decompose Epics to Features and Features to Stories.
- How to collaborate with Agile teams to forecast work.

PDU and SEU points

Participants have the right to apply for 15 PDUs necessary to obtain or continue Project Management Institute (PMI) certificates – applies to PMP, PgMP oraz PMI_ACP certificates.

Expected Listener Preparation

The training is intended for everyone interested in this subject, regardless of their experience.
