Czas trwania

3 dni / 22 godzin

Agenda szkolenia

- This course is the best starting point to learn about SAP HANA high availability, disaster tolerance capabilities in larger SAP HANA landscapes.
- The course is independent from the SAP NetWeaver administration world, as it teaches how to perform system administration on the SAP HANA platform. The system administration tools used are native to the SAP HANA database platform.

- Throughout the course, you will learn about the following advanced SAP HANA administration topics.
 - SAP HANA scale-out and host auto failover.
 - SAP HANA system replication between datacenters
 - SAP HANA python scripts provided by SAP
- Contents:
 - SAP HANA High Availability and Disaster Tolerance
 - SAP HANA multi host scale-out and host auto failover
 - SAP HANA storage and system replication
 - SAP HANA system replication options
 - SAP HANA python scripts provided by SAP
