

Quality Planning and Inspection in SAP S/4HANA

Przeznaczenie szkolenia

.

Korzyści wynikające z ukończenia szkolenia

- Participants learn how to process QM-specific basic data as well as inspection planning details. They also learn how basic data is used in different plans and see how this data influences the generated inspection lots. The general inspection process is modeled using various examples.
- In addition, the training course demonstrates the possible uses of quality notifications.

Opis egzaminu

.

Oczekiwane przygotowanie słuchaczy
